

GROW COMMISSION-FREE ONLINE ORDERS FOR USF CUSTOMERS

ChowNow is a commission-free online ordering platform built for independent restaurants. It helps restaurants grow more profitable takeout sales, build customer loyalty, and simplify operations with direct online ordering, built-in marketing tools, and POS integrations.

Why Chownow

ChowNow complements third-party marketplaces like DoorDash by helping restaurants manage orders from multiple delivery apps in one place, own their customer relationships, and turn marketplace diners into repeat, direct customers. Through the ChowNow + US Foods partnership, US Foods restaurants get an exclusive offer to keep more profit—without adding operational complexity. Learn more at get.chownow.com.

Keep More Profits

Accept orders through your own direct channels so you keep more of every order.
